EARLY YEARS MANAGEMNET NEWSLETTER – NOVEMBER 2021

After revelling in the festivities of Dussera and Halloween and Deepavali, a flurry of exciting activities waited for our tiny tots in November. We at Greenwood Early Years celebrated World Kindness Day where we helped our children make smiley cards and give it to their domestic helps, security guards, drivers to make them feel appreciated. We also emphasized kindness and the joy of giving through this activity. We also celebrated 'World Tongue Twister Day' and made our classes lively by integrating our EVS concept Animal Kingdom with it. Our young learners had a good laugh when they tried their hand at tongue twister quotes on animals. We also celebrated Children's Day with their favourite cartoon characters. The day signified by appreciating and enjoying childhood. The teachers made the day special by entertaining the children in their own unique way either by a dance or a poem dedicated to each one of them.

Our children went on a virtual visit to the farmhouse and the jungle safari and an aquarium while learning all about the Animal kingdom. We at Greenwood high believe that the formative years is the foundation for developing cognitive skills and vocabulary building. For the first time in literacy we introduced sight words to our tiny tots to catch them young and turn them in to budding vociferous readers. The children learnt the significance of colour orange in our National flag and the different things that are naturally orange in colour in their Numeracy Class. Our tiny tots got on their toes in their PE classes with some easy stretches and exercises. They found them lost in the stories of fairy lands in their story telling classes. Art classes with the easy activities honed their artistic skills. Dance classes got them grooving to the tune of Gummy Bear and Jingle Bells. We ended the month with a Thanksgiving celebration and activity to inculcate the value of gratitude for all the people and things that brings us joy.
