KG 1 – Management Letter December 2021

The month of December is very special as we have the Christmas celebration. The festival of Christmas is synonymous with sharing with caring, so the little ones were given the activity of selecting an object from their possessions, which they would like to share with an underprivileged child. This item was wrapped and with a personalized note, the child was asked to gift it. This also helped in instilling the values of sharing in the little children.

In Numeracy the children learnt the Concept – Half and full and 3 D shapes – Cone and Prism the children enjoyed learning these concepts through fun hands-on activities. In literacy the children learnt the letter W, Z, X, many sight words and blends and enhanced their vocabulary learning new words. The children also learnt about Seasons – types of seasons, food and clothing used during the seasons and also how humans and animals adapt to different seasons.

During the month of December, we also had dance and singing sessions, where the children enjoyed singing Christmas carols. For the arte session, the children used their creativity to make crafts based on the Christmas theme. We also had the P.E(physical exercise) sessions where the children had few stretching and jumping exercises and they learn skills like balance, control and coordination.

As the year 2021 comes to an end, we are grateful for all our blessings and we look forward to a happy and healthy New Year 2022.
