KG 1- MANAGEMENT LETTER JANUARY 2022

During the month of January, we introduced the topic "WATER" to the children. The children learnt about the sources of water. We also had discussions on the importance and uses of water and how no living being can survive without water. As a project the children made a model based on 'The sources of water'. With the help of an interesting experiment, the children were introduced to the three forms of water. Through a hands-on activity, they saw how solids turn into liquid when heated, by heating Jaggery and sugar. We also introduced the concept - sink and float through a fun activity. The children used random objects for the experiment and by dropping them into a bowl of water, it was shown that some objects float and others sink in water.

In literacy the children learnt new sight words, digraphs and also how to build these words using Alphabet flashcards. In numeracy, the children were introduced to subtraction, grouping on 5's, halves and doubles through a fun hands-on activity and they also learnt about rows and columns.

During the month of January, we also had dance and singing sessions, where the children enjoyed singing. For the arts session, the children used their creativity to make model of a "well" using based on the Water theme. We also had the regular P.E(physical exercise) sessions where the children learn to keep themselves fit and active by doing few stretching and jumping exercises.
