EY MANAGEMENT LETTER August 2022-23

The month of July has been significant in propelling the confidence of our tiny tots' high. It featured the first and the foremost event of the academic session. We at Greenwood High, celebrated Grandparents' Day with great fervour and pomp. Our little ones put up a well coordinated performance displaying discipline and hard work, that left the audience awestruck.

Academically our children learnt about colours, shapes and numbers in their Numeracy classes, letters in their literacy classes. They were made aware of new vocabulary words. They also learnt about personal hygiene and keeping their surroundings clean.

Our tiny tots, in their prewriting skills, learnt to sort vegetables from fruits, they had a hands on experience with pouring activity for the concept 'in and out'. In the life skills they learnt about napkin folding. It was indeed a pleasure to watch our tiny ones blossom so well.
