MANAGEMENT LETTER KG1 August 2022

The theme for the month of August was "Transport". In this context, the children learnt about the different means of transport, the uses of Emergency vehicles /Rescue vehicles such as ambulance, lifeboats etc. The use of these vehicles was highlighted and the roles that they play in saving lives were explained to the children. We also discussed about the 3 modes of vehicle sports such as air sports, land sports and water sports.

Through various interesting hands-on activities, the children were exposed to different concepts such as up and down, full and empty, more and less. The sense of touch was also explained to the children by making them touch different textures and explaining the difference. The concepts and positional words were all done through fun, instruction based, hands on activity.

In literacy the children learnt new sight words and how to frame sentences using these sight words. They also learnt how read 'a' 2 and 3 letter words.

As a part of our extracurricular activities, we had dance and singing sessions, where the children enjoyed singing and tapping their feet to music. For the arts session, the children used their creativity to make different types of crafts based on the theme of Independence Day. We also had the regular P.E(physical exercise) sessions where the

children learn to keep themselves fit and active, by doing various stretching and jumping exercises.
