

MIDDLE SCHOOL ~ SEPTEMBER 2022

Grade 5 & 6

English Club ~ Grade 6

Students of Grade 6 tried their hands at creative advertisement during their English Clubs, wherein they discussed and deliberated over creating an advertisement for a product of their choice. Students worked in groups of six and each team came up with visually compelling, creative and outstanding advertisements which told a story. Most importantly, each team spoke confidently about what made their brand unique and compelled the audience (the teacher and their fellow classmates) to STOP, LOOK, LEARN and SHARE! The activity enabled students to develop team spirit, work in collaboration, think out of the box and present ideas creatively. It was indeed an exciting and an engaging experience for the students and we look forward to many more opportunities of making learning fun!

Geography ~ Grade 6

Students created booklets based on types of water bodies. They expressed themselves artistically and creatively.

Physics ~ Grade 6

Students of Grade 6 created working models of sundials and observed how the shadows falling on their models throughout the day could predict the time.

English ~ Grade 6

Grade 6 turned one of their lessons 'Athos, Porthos and Aramis' into a role play. The role plays by each group were entertaining and illuminating.

Social Studies ~ Grade 5

Students of Grade 5 made drawings and models of homing pigeons to depict how communication was done in the medieval times.
