

Grade 1

DAY ONE

AT SCHOOL

The school atmosphere was brimming with excitement and enthusiasm as the children arrived at school after a long gap. Post online classes and summer vacation, coming to school to meet their friends and teachers was a joyous moment for our little ones.

PLAYTIME

The children bonded with their peers over play time in the park. The hour was filled with fun and laughter, while they took turns playing on the slides and swings.

ENVIRONMENT DAY

Observing the Environment Day, a colouring activity was conducted in the class. The children used their creativity and imagination to come up with some beautiful colour schemes. They also learnt the importance of protecting nature through this activity.

MATH AND ENGLISH

Adapting to the new routine, some topics from the previous academic year were revisited. It was topped up with more fun, as the children made letters of the English alphabets with clay which unleashed their creativity. An interesting 'Join the Dots' activity sheet was done in Math, which resulted in a Gingerbread Man. The children enjoyed colouring and decorating their own Gingerbread Man!

KANNADA

HINDI &

Children got their first lessons in Hindi and Kannada. They tried their hands in tracing and colouring the first seven letters of the alphabets and took the art and craft path to learn the letter formations.

FIRST SWIMMING LESSON

The most awaited swimming class started with a lot of excitement. The children enjoyed the waters and had their first lesson under the watchful eyes of their swimming instructors. We must mention that getting the children out of the pool was quite a challenge!

TIME

YOGA

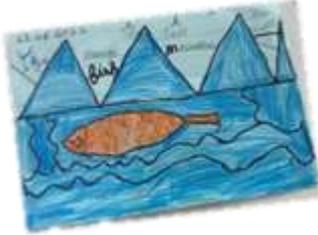

Yoga and mindfulness benefits both the physical and mental health in children (ages 6 to 12). It improves balance, strength, endurance, and aerobic ability in them. Our children performed yoga along with their instructor and followed the instructions systematically.

Grade 2

ENGLISH

The second graders enjoyed displaying their creativity on paper as they drew different pictures and described it. This activity helped them to think and apply adjectives in the most creative manner. Our little creative geniuses came up with interesting pictures ornamented with beautiful vocabulary.

MATH

Revisiting TENS and ONES couldn't have gotten better. An activity was conducted, where toothpicks were used to make bundles of TENS and single sticks for ONES. This helped in strengthening the concept and took the students move from concrete to abstract easily. The activity also helped them improve their fine motor skills as the students made the bundles on their own with their partners.

SCIENCE

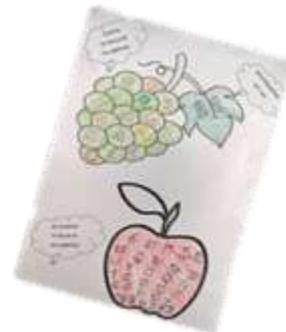

ENVIRONMENTAL

Go Green was the motto of Grade 2 when they made paper bags and said NO to plastic bags. Our little creative minds made beautiful bags, coloured them and made it attractive with messages on their bags. This activity encouraged children to understand the negative effects of plastic on our planet. They found an alternative solution to this problem by making paper bags.

KANNADA

The language was made interesting and fun as students differentiated the grouped the Kannada letters as Swaragalu, Yogavaahagalu and Vyanjanagalu through a hands-on activity.

HINDI

Young children love exploring the world around them, and they learn so much by doing things themselves. Creative activities are essential for any young child's learning process. An activity based on Amatrik shabd (words without matras) was conducted. Children wrote words and drew pictures relevant to

the words. They loved and enjoyed the colouring and decorating process during this activity

Grades I - IV

Grade 3

ENVIRONMENT DAY

The World Environment Day was celebrated with a lot of the zeal at school. Eco-friendly bags making activity was conducted across Grade 3. Children made paper bags and also discussed about the other eco-friendly products that could be used to save our environment.

HINDI

Vocabulary is a matter of word-building as well as word-using. Our inquisitive minds created a word ladder - "SHABD SEEDHI " where the students were given a word and based on that these young minds constructed more words. "Kudos to their creativity".

SCIENCE

The science activity was all about understanding positive and negative habits in oneself. Children took some time to think about these habits, wrote them on a sticky note and posted it on a chart paper. This activity helped them not only to identify their negative habits but also to work towards overcoming them.

KANNADA

Learning was made easy and fun with this activity that was conducted in the Kannada class. Students were given a task to classify the given words based on types of Ottaksharagalu. They not only enjoyed doing the activity but also got a good understanding of the concept.

MATH

The students enjoyed the Math activity on Number System and represented them in Base 10 model and Abacus. They applied their newly acquired skills in writing a 4 Digit Number in words and in expanded form. They decorated their work with colours and smiles on their faces.

Grades I - IV

Grade 4

ENVIRONMENT DAY

Go Green, there is no Plante B! Let us nurture our nature to have a better future! – were a few slogans that were brought into action for this Environment Day. The students of Grade 4 made beautiful colourful and thought-provoking posters to do every bit for mother nature.

HINDI

The children of Grade 4 learnt about the 'matras' of the Hindi writing system through an engaging activity wherein the students read out the words with matras and made pictures. They had to match them and discuss in class. The activity proved to be quite helpful as the students were very interested and involved and their concepts were further strengthened.

SCIENCE

Science classes commenced with lessons in importance of balanced diet, different ways we can preserve food and avoiding wastage of food. An interesting activity was held where students designed a table mat that made meals more appealing and delightful. The children used their imagination and creativity and this activity surely encouraged them to understand the food they eat and how it helps them grow.

ENGLISH

English lessons jumpstarted with listening and reading comprehension activities to encourage our 4th Graders to listen and read carefully to comprehend well. Reinforcement of some basic grammar topics was made fun through online activities and a class quiz.

Social Science is all about learning our yesterday, to live for today and work for a better tomorrow. Knowing our world, the continents and oceans by mapping them was an extremely engaging activity conducted in the social science class. This was further made interesting with a brainstorming session based on various facts about the world we live in.
