

EARLY YEARS MANAGEMENT LETTER 2022

The last month of the year has been an exciting and electrifying month in terms of achieving new heights and setting goals for our little ones.

“Happiness lies in the joy of achievement and the thrill of creative effort” – Franklin D Roosevelt. Our happiness and achievement touched the pinnacle of success, when our tiny tots, put together a splendid performance during their ‘Presentation’ event. They displayed discipline, wit, humor and liveliness during the event that left their audience enthralled and entertained.

Our experiential teaching learning methods explored the possibility of learning through touching and feeling organism around us. They learnt all about the creepy crawlies in EVS, by watching them live in their classroom. This was indeed an exhilarating experience for our babies. They could associate the beginning sounds of letters Rr, Ss, Tt to the pictures and things shown in the class. They could differentiate wide and narrow, full and empty through hands on activities.

The month ended on a high and happy note. In keeping with the spirit of the season, we at GWH Kindergarten, had a Christmas celebration followed by a class party where the children shared their food with their friends. Children were mesmerized by the arrival of Santa who handed over the gifts to them. Our little babies were left with a happy song and a wide smile on their face before they left for their winter break.

We take this opportunity to wish you a **MERRY CHRISTMAS AND A HAPPY NEW YEAR!**

Team Kindergarten
