

Management Newsletter – July 2023

“The greatest gifts we can give our children are the roots of responsibility and wings of independence.”

-Maria

Montessori

With the beautiful month of July stepping in we are proud to say that we are looking towards greater challenges to grow and evolve as enthusiastic learners. As we conclude the month, we have now slowly achieved the milestone of getting the kids to comprehend and express themselves independently. This month the little ones learnt about ‘My Senses and sense organs’ in EVS where they were taken a little deeper to their senses their functions, parts, and some fun facts. The senses were explored by giving an experiential learning through a field trip to ‘Dominos’. In Numeracy, they were introduced to the 2D shapes and concepts of slow and fast, early, and late with degrees of comparison. Literacy classes opened their pathway to reading simple sentences and writing the blends and rhyming words. They looked enthusiastic and energised to this new and fun way of learning.

Grandparents Day was welcomed with a bang performing for them. Art class sparkled on their creativity and our tiny one’s made beautiful handcrafts on different concepts. While their sense of sound, co-ordination and rhythm were strengthened with Dance and Music, Yoga and PE helped to build their stamina, flexibility, and focus.

July was thus an all-inclusive month which saw a lot of learning and procurement of knowledge in an interesting and entertaining way.

The wider the range of possibilities we offer children, the more intense will be their motivations and the richer their experiences. With this note we look forward to making our coming months more interesting and unique.

Regards

Team KG II
